

# The Pines Pre-School

## Nutrition and Food/Drink Policy

At the Pines School Based Preschool, we aim to promote healthy eating and encourage children to make healthy food choices in a safe, supportive environment. Snack/lunch times at Preschool are integral parts of each day. They encourage children to develop healthy eating habits, and also build on social skills, such as initiating conversations, asking questions and using manners.

Our policy is based on the *Australian Dietary Guidelines for children and adolescents* and *DECD (Department of Education and Child Development) "Rite Bite Strategy."* This strategy emphasises the need for children to:

1. Enjoy a wide variety of nutritious foods.
2. Eat plenty of breads, cereals, vegetables and fruits.
3. Include dairy products such as milk, cheese and yoghurt in their diet.
4. Eat foods that are low in saturated fat.
5. Balance food intake with physical activity.
6. Eat only moderate amounts of foods containing sugar.
7. Choose low salt foods and use salt sparingly.
8. Be taught to avoid foods that can cause adverse reactions (allergies) and not to share foods with others that may have adverse reactions.

The purpose of this policy is therefore to:

1. Educators can support children to develop healthy eating habits.
2. Promote children's understanding of how food affects health and the relationship between healthy eating and good health.
3. Ensure that food provided at the Preschool and food brought from home reflect the DECD "Rite Bite Strategy."
4. Support children who have health and cultural needs relating to special diet requirements.
5. Raise awareness of good nutrition principles.

## Nutrition Strategies

### Snack Time Guidelines:

Please provide your child with a healthy snack such as:

- Fresh/dried fruits
- Vegetables
- Cheese, yoghurt
- Crackers, rice cakes

Our policy **does not** include items such as cakes, chips, lollies, chocolate, custard, sweet biscuits, cordial, soft drinks. If your child brings an inappropriate snack they will be asked to put it back

in their bags to eat when they get home. Parents/Caregivers will be notified with a note stating an alternative healthy snack to be provided instead.

**We are a nut aware Preschool.** Each year at Preschool, we have a number of children who have severe allergies to nuts and/or foods containing nuts (this also includes Nutella and peanut butter). It is important for Parents/Caregivers to check food labels to ensure all foods are nut free.

Parents/Caregivers are also encouraged to be mindful of providing their child with **eggs or egg products**, due to children at the Preschool with egg allergies.

**Lunch Time Guidelines:**

Parents/Caregivers are encouraged to provide their child with a healthy lunch. For example:

- Sandwiches may contain fillings such as cheese, fresh vegetables, butter, vegemite. No Nutella or peanut butter.
- Cultural foods are acknowledged and accepted.
- Children are encouraged to drink water with their lunch.

**Drink Guidelines:**

Parents/Caregivers are encouraged to provide their child with a named drink bottle of **water only**. We also provide a water dispenser container and cups for children. We will refill drink bottles when they are almost empty.

**Food safety in our Preschool**

- We provide hand washing facilities for all adults and children.
- We promote appropriate hand washing procedures with children.
- We promote healthy foods and healthy eating through the use of fresh produce from our garden and through cooking experiences.
- We do not have facilities to appropriately re-heat food.
- Staff will follow safe hygiene practices when handling food (washing hands, wearing food handling gloves).

**Approved at Governing Council on (Date): .....**

**Approved by Principal: Cherie Collings**

**To be reviewed: October 2019**

\*In accordance to the Education and Care Services National Regulations under the Education and Care Services National Law.
