

Work alongside School Numeracy Leader to provide quality number experiences and activities

Link numeracy learning to literacy learning.  
Eg: Small world and story tables

Monitor each child's learning and progress, providing further support when needed

Engage families in children's numeracy learning and development.  
Eg: Take home packs and info

**GOAL: Educators improve children's ability to describe and use number language and concepts**

*Challenge of practice: Educators strengthen our shared understanding of number language and concepts, and provide an environment rich in number experiences*

*Success Criteria: Children use and transfer number language and concepts during play, group learning and conversations with peers and educators on a daily basis. Evidence from documentation and data collection*

## 2021 Preschool Quality Improvement Plan Summary
