

Respect, Belonging and Fun Engaged Learning

## Leadership News

Dear Families,

As previously explained in earlier Newsletters we have moved to an electronic attendance system. It's essential that we have up-to-date phone numbers from parents/caregivers on our system to ensure we can contact people on their correct telephone number.

Last term we sent home information to each family, checking contact details to ensure accuracy. If you change your contact details please let the Front Office know.

Now that we believe we have accurate contact numbers, we will add telephone numbers to our new attendance system. This will mean that from next term, if your child is absent, you will receive a text message. Further information about this will come home at the end of this term.

### **Parking around Schools**

Salisbury Council has confirmed that they will be sending parking inspectors out to patrol parking around our school. Andrew Smith Drive in front of the school is a '**No Parking Zone**', parents/caregivers who **leave their vehicles unattended**, could incur a \$92 fine. The '**No Parking Zone**' is a **drop off only zone**.

# What is your parenting style?

**Parents are the most important influence in children's lives. The relationships we have with our children, the values we give them and the example we set have more impact than things like how much money we have or where we live. While there are many different parenting styles, children benefit when parents are warm and loving and provide clear guidance and support. Understanding more about parenting styles and how they affect children can help you work out the kind of parent you want to be.**

## Being a parent

Raising children can bring great joy as you watch them grow and develop and become their own unique person. There can be challenges too and most families find that parenting is a journey of ups and downs. It can help to remember that:

- there is no such thing as a perfect parent, or one right way to be a parent. A loving relationship with your child is what's important
- each child is an individual with their own temperament and unique qualities. You need to adapt your parenting to meet each child's needs over time
- you are a person as well as a parent. Looking after your own needs makes parenting easier
- all parents need help at times. It's OK to seek advice and support from family, friends and services when you need it.

**Most parents learn about parenting 'on the job' and grow into their role with experience. It is important to believe in yourself and have confidence in your parenting.**

## What influences our parenting?

Our ideas about parenting come from things such as how we were brought up, our life experiences, our culture and religion and what we have read or seen others do. You may have had positive experiences as a child and want to do things the same way your parents did, or you might want to do things differently.

### Values

Our parenting is also influenced by our values, whether we realise it or not. We might do things a certain way because of our values – the deepest desires about life that drive us. You might:

- take time to make healthy meals because you value health and wellbeing
- encourage children to do things for themselves because you value responsibility.

You might decide that in your family it is important to:

- show love and kindness
- be patient and fair
- accept each other's differences
- have a safe home with no yelling or hitting.

### Parenting together

Parenting will be easier if you work with your child's other parent, whether you live together or not. Talk about what is important to you both and for your family. As time goes on you can think about whether your parenting matches your values. If you value respect for others and then yell at your children or each other, you might ask whether you are living by your values.

**Children benefit when parents work together in their parenting.**

## Broadway 4 Kidz Review by Room 25

Do you like musicals and fun performances? Broadway 4 Kidz is a great kid's performance.

The music and sound were all good except for the part where the sound went loud, and they had technical difficulties. The acting, dancing and singing were amazing, except I was wondering if one part was inappropriate, the Shrek part where he was farting with Fiona.

The setting was quite nice and set out well. They needed more props because it would be more believable. The costumes really flowed and fitted with the songs and were amazing. For the sound there were two speakers facing the audience and two were facing the actors and although they had technical difficulties, they fixed it straight away. The clothes are shiny, glittery, bright and colourful. The singing wasn't always in tune; however, they were amazing singers and the songs sounded great.

Aleah

Would you like to be entertained? Then watch Broadway 4 Kidz.

Broadway 4 Kidz is an entertaining production full of colour. The singing was amazing, it was clear, we knew what they were saying, except for when the sound cut out. The costumes were well made and stood out which is important. The organisation was well done because they had everything ready and the costumes ready. One thing I wish they did was use more props, but they might not have had enough money for them because every student only paid \$5.

One of the acts was the "Little Mermaid" and I think that it is too childish for Years 5, 6 and 7's also, the "Frozen" song was too childish. Some of the acts were a little boring because they did them last year e.g. the crab act was from last year. Their acting skills were good, they didn't mess up their lines. Sometimes the music would have some technical difficulties as the music would stop or glitch or the music would go very loudly and hurt your ears.

In my opinion I think that this production is suitable for 4 to 9 year old's because some of it was too childish. I give this 3.5 stars out of 10.

Chloe

## ROOM 37 STEM

As part of our learning in STEM, the Room 37 Year 6 class has been practising our design and engineering skills.

**Our challenge:** to combine design ideas in groups and apply these into building a spaghetti bridge.

**The task:** research, design, plan and build a bridge made of spaghetti which is capable of holding a certain weight.

We have some great ideas, designers, planners and builders

Some of us took a little longer!!!

Once we finish our bridges, we look forward to testing them and finding out which team's design withstood the most weight and which one looked the best..... SO FAR, SO GOOD!
